Topic: Automating "Cloud Functions" SDLC
Speaker: Casey West

Abstract:
Serverless architectures are becoming more popular and as they come into widespread use

TUE, FEB 20 · 6:30 PM EST
Casey West on Automating the Cloud Functions SDLC

Past event

Cloud Functions. We'll follow the Software Delivery Lifecycle from source control through continuous integration and on to deployment.

We'll be using Google Cloud Platform (GCP) to host our serverless architecture, however the concepts described are useful for implementations destined for other platforms as well.

I am excited to express my thanks to the Event Hosts and the Orator of this great meetup. The demonstration of Cloud functions was excellent , giving clear details about the deployment of coding and file management between Google Cloud and other Cloud platforms.
