Details

Meetup has been our gracious host since nycdevops started over a year ago. It is therefore only appropriate that they give the first talk of the new year in their newly remodeled 9th floor space.

Join us as Merrill and Qing walk us though the Meetup site architecture, discuss their experience building a secondary data center with dual site replication, multiple data stores, fail over testing, and more.

Speakers:

Merrill Ferguson - Director of Technology Operations at Meetup.

Qing Shou - Systems Architect at Meetup
