DevOps author and pundit John Willis asked me to forward this...

"DevOps for GenAI Hackathon' for DevOps and Platform Professionals: Jan 17 in NYC"

You are invited to join us! GenAI is exciting but fraught with challenges. Let's work together to understand what needs to be done to bring GenAI into our orgs and make the most out of this once in a generation opportunity.

Register at <https://lu.ma/DevOps-for-GenAI-NYC> to join your peers for this first-of-its-kind event!

Hi folks! I'm reviving the Jersey City Java User Group, and I'm mentioning it here because our first talk isn't about Java at all, but rather about how change moves (or doesn't move) through sociotechnical systems like software development teams and orgs.

Our first speaker will be the old-school XP programmer and coach GeePaw Hill. I may have buried the lede here. If you haven't seen him in action, you're in for a treat.

Join us at 3pm this Tuesday: <https://www.meetup.com/Jersey-City-Java-User-Group-JC-JUG/events/273503766/>
